POPULATION OF INDIA

- The Population of India is 136 crore in 2021, In next few years, India will be the most populous country in the world
- Population of Maharashtra is 112.37 Million. And the Population of Nagpur city is 49,79,542.
- Due to overpopulation India is facing problems of unemployment and low standard of living. In India there is a big class of Middle class and they can not start business with big investments but food industry invites people to start with low investment and high benefits.

Tea Time Break

Everyone from the youngest to the oldest loves tea and everyone just needs a break for a cup of tea. But during this corona period, people need to take special care while drinking tea. That is why drinking tea in unhygienic places is harmful to health. Alternative tea and breakfast venues have become important now. With this in mind, the concept of Mahachaha has emerged with all hygiene.

REGIONAL SNACKS OR BREAKFAST

- ✓ India is a diverse country with many regional cultures, each region has its own food speciality.
- ✓ The difference can come from a local culture and geographical location whether a region is close to the sea, desert or the mountains and economics.
- ✓ Indian cuisine is also seasonal with priority placed on the use of fresh produce.
